Aamaan Ssanjay Sharrma

Agent Engineer | Full-Stack Developer

Pune, Maharashtra, India | +91-9172002120 | aamaansharrma6@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Software Developer with 1.5+ years of experience building and operating **production AI agents and backend systems**. Hands-on experience with **AWS Bedrock AgentCore, agent evaluation, Langfuse, RAG, LLMs, Node.js, TypeScript, Python, AWS, SSE, and WebSockets**. Experienced in taking AI systems from POC through production while optimizing reliability, observability, latency, and quality.

PROFESSIONAL EXPERIENCE

Mindstix Software Labs **Jun 2025 – Present**

Software Developer *Pune, India*

- **AI Order Notes Summarization Agent:** Architected and operated a production AI agent using **AWS Bedrock AgentCore**, deployed across 2 production regions behind shared **Keycloak/OAuth authentication**.
- **Agent Evaluation & Observability:** Implemented production evaluations, tracing, and monitoring with **AgentCore**, and built offline evaluation workflows using **Langfuse and golden datasets** to validate agent behavior and identify regressions.
- Re-engineered the request lifecycle using **Server-Sent Events (SSE)** and resolved a cascading 3-tier timeout failure, reducing average end-to-end generation time from 35s to ∼20s, a ∼43% improvement.
- Diagnosed and resolved 15+ production and QA defects involving **async race conditions, OAuth/JWT, CORS, API integrations, and legacy systems**, taking the feature from QA through stable production rollout.
- **CSR Rep Copilot & Claims Analysis:** Built an AI application on **AWS Connect** combining real-time WebSockets, **RAG**, and AI Claims Analysis to surface contextual suggestions and claim summaries.
- **Root Cause Analysis Agent:** Developed a multi-agent RCA system using **AWS Bedrock AgentCore**, integrating CloudWatch, GitHub MCP, Web Search, and specialized agents to investigate production failures and generate RCA documents.
- **Full-Stack & Backend Delivery:** Built production **REST APIs using Node.js, TypeScript, Express.js, and NestJS**, integrated with React frontends, and implemented a supporting GraphQL API for enterprise workflows.
- Performed production debugging using **CloudWatch, Splunk, SonarQube, and agent traces**, while configuring **Jenkins CI/CD** pipelines for multi-region deployments.

OmneVu **Dec 2024 – Jun 2025**

Full Stack Developer Intern *Remote*

- Enhanced an Inventory Management System using **React, Express.js, Firebase, and backend APIs**, increasing data accuracy by ∼20%.
- Redesigned Warranty Management workflows using React and Material-UI, reducing average claim resolution time by ∼30%.
- Rebuilt RetailSoft UI workflows using **Vite and Firebase real-time data**, contributing to a ∼15% increase in product page engagement.

PROJECTS

VidhaanAI – Agentic AI / LLM Platform *React, Node.js, LangChain, OpenAI API, Pinecone, Redis*

- Built a full-stack **agentic AI platform** implementing hybrid retrieval, conversation memory, streaming responses, and multi-agent coordination across 4+ agent roles.
- Implemented **RAG, vector search, LLM orchestration, rate limiting, fallback strategies, and structured agent workflows** supporting 20+ concurrent sessions.
- Built an evaluation framework using a custom 50-query enterprise benchmark, reducing hallucination rate from ∼40% to ∼26%.

TECHNICAL SKILLS

AI / Agent Engineering: AWS Bedrock, AWS Bedrock AgentCore, LLMs, AI Agents, Agentic Workflows, LangChain, RAG, Prompt Engineering, Tool Calling, Multi-Agent Systems, Agent Evaluation, Golden Datasets, Langfuse, Trace Debugging, Observability

Backend: Python, Node.js, TypeScript, JavaScript, Express.js, NestJS, REST APIs, GraphQL, WebSockets, SSE, Asynchronous Programming, API Design

Cloud / DevOps / Security: AWS, AWS Connect, S3, CloudWatch, Jenkins, CI/CD, Splunk, SonarQube, Keycloak, OAuth, JWT, CORS, Authentication, Authorization

Databases / Frontend: MongoDB, SQL, Firebase, Neo4j, Pinecone, ChromaDB, React 18, Redux, SCSS, Material-UI, Vite

Engineering: System Design, Data Structures & Algorithms, Design Patterns, SDLC, Agile/Scrum, Unit Testing, Integration Testing, Git, GitHub

EDUCATION

Vishwakarma Institute of Information Technology **2021 – 2025**
B.Tech in Information Technology | CGPA: 8.9/10 *Pune, India*
Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Object-Oriented Programming, System Design
